Check-In & Day-Of Registration

Check-in is available at the location listed below. Unregistered riders may still register for all routes that morning. You only need to check in once:

- Where: Cal-Zorn Park, 307 W. Russell Rd Tecumseh, MI 49286
- When: June 10, 6:30 to 11:00 a.m.

Parking

Free parking is available at two different locations:

- You can also find street parking along Russell Rd. and in town all around Tecumseh.
- *PLEASE NOTE: Do not park in the lot off N. Raisin Center Highway. This is the start and finish line for the routes and home base for the event. No parking is allowed in that lot.*

Route Markings

Cue sheets will be provided at check-in for the route of your choice. When local ordinance allows, primary routes will be marked with "T3" arrows on the pavement. If possible, any deviation will be posted at the registration area. Day-of changes will be made via announcements, and/or by posting a volunteer at the detour.

Optional routes will not usually be marked, but cue sheets will be provided.

Gravel routes will mostly be marked with signs. We will mark as much of the gravel routes as we can with signs and paint where possible, but please rely on cue sheets and the RWGPS files for directions.

Each marked route will be marked with signs and paint in a designated color. See the key below:

HUBFEST ROUTE MARKINGS

Tecumseh Tarmac 40 (Blue)

Tecumseh Tarmac 62 (Pink)

Classic Gravel 40 (Orange)

LMB PRESENTS:
**T3 ROAD
MARKING**

1 MARKING

You will see a series of three triangles pointing in the direction of the route.

2 TURNS

Turns will be marked by the arrows pointing in the direction you need to turn.

3 CAUTIONS

Areas that could be tricky to ride will be denoted with the T3 marking with an added line across them. This could denote a steep hill or loose terrain.

4 WRONG DIRECTION

Areas where a possibility exists to go the wrong way will be marked with an "X" that corresponds to the course color markings.

Routes on Ride with GPS

We host all routes on Ride with GPS (RWGPS) where they are available to download. You can print your own cue sheets and maps, download the route to use on your bike computer, or use the RWGPS app on your phone for full turn-by-turn navigation on the routes for the day of the event.
